RESPONSE TO RESTRICTION REQUIREMENT

Commissioner for Patents  
Washington, D.C. 20231

Dear Sir:

Applicants have read and considered the Office Action dated January 24, 2001. In the Action, a Restriction Requirement was placed on the application. The Examiner stated that there were four groups, namely: Group I, claims 1-3, 15 and 19; Group II, claims 4-14; Group III, claim 16-18; and Group IV, claim 20. Applicants hereby elect Group II, namely claims 4-14, drawn to a method for functional analysis of a target region in a sequence of interest using cells grown under selective and non-selective conditions with traverse.

In addition, the application contains sequence disclosures that are encompassed by the definitions for nucleotide and/or amino acid sequences set forth in 37 C.F.R. 1.821(a)(1) and (a)(2). The Office Action stated that the application fails to comply with the requirements for patent applications containing nucleotide sequence and/or amino acid sequence disclosures. A proper sequence listing in computer readable form will be provided in due course.
